# 5 Core Services

## Refacing

During the cabinet refacing process, we install new cabinet doors and drawer fronts, then cover the existing cabinet boxes with a veneer to match them. Cabinet refacing improves both the appearance and durability of your kitchen cabinets without changing the familiar layout of your kitchen.

*With our Refacing Plus option, we can install additional cabinets, drawers, and islands for an updated look and a more efficient space!*

## Redooring

Cabinet redooring replaces your doors and drawer fronts with new ones in your choice of style that are color-matched to blend with your existing cabinet boxes. Your hinges and hardware are also updated. It's a quick and easy way to update your kitchen.

## Original Tune-Up

Bring your kitchen cabinets back to life! A Tune-Up wood reconditioning will restore your existing wood cabinets using our proprietary process that is typically completed in one day.

## Custom Cabinets

If you'd like to change the layout of your kitchen, need special cabinetry or simply want a new and fresh look, we can help. With countless styles, colors and materials to choose from, we make it easy to create the kitchen of your dreams. Need more cabinets or storage? We can help with that too!

## Painting

Refresh the style of your current cabinet doors with cabinet painting by Kitchen Tune-Up. Changing the color of your cabinets is an option to breathe fresh life into your space.

# Retiree's Uplifted Kitchen: A Remodel for Hosting Family and Making Memories

“ Jaydn, Matt, and the people who came out to do the work were fantastic. The outcome of our new kitchen is stunning, and we love it. The communication with Kitchen Tune-Up was exceptional. ”  
-Cherie B.

Cherie and her husband, Ron, had been considering a kitchen remodel for at least 2 years. Cherie was a little more hesitant in starting the process, until one day while out shopping, she decided to visit the nearby Kitchen Tune-Up of Grand Rapids’ showroom. This is where she met Design Consultant, Jaydn Braun. Jaydn showed Cherie the 5 core services that Kitchen Tune-Up offers from painting, refacing to custom cabinetry. Cherie was happy to learn there were other options aside from a full kitchen remodel.

Kitchen Tune-Up was able to accomplish this using their kitchen refacing plus service. The peninsula was removed, and new cabinets were added to the right of the sink. The existing cabinets were refaced and extended to the ceiling, giving the kitchen a brand-new look without the disruption and cost of a full kitchen remodel.

Ron and Cherie also love coffee and wanted to incorporate a specific coffee space into their updated kitchen. They converted a double doored base cabinet into drawers and utilized one of the larger drawers to store mugs and all their coffee accessories, which was exciting for Cherie as she could now organize everything together in one location.

The new cabinetry also included a larger, built-in trash bin, which was a must-have for Cherie as it made the space more functional. She is thrilled with the outcome of the remodel and loves how beautiful the kitchen turned out. One of her favorite features of the kitchen is the gorgeous quartz countertops and granite composite sink. She’s really appreciative of the collaboration with Jaydn and the suggestions she made. Jaydn was able to bring their vision to life and solve their pain points from aesthetics to function and create a beautiful area that they both love.

# Kitchen Countertops

Choose the perfect countertops for your kitchen! When it comes to aesthetics and usability, your kitchen countertops are a vital part of your room’s design. Your local Kitchen Tune-Up can help you decide on which countertop material is best for you.

## Quartz

Quartz is an alternative to granite and has become a popular option in kitchens since it is extremely durable, long-lasting, and nearly maintenance-free.

## Granite

Granite is a natural stone with a smooth, natural look, making it one of the more popular kitchen choices. It comes in an assortment of shades and patterns.

## Laminate

Laminate countertops are moderately durable and available in a wide variety of colors and patterns.

## Butcherblock

Wood countertops, also called butcherblock, offer a natural aesthetic to your kitchen but still fit in with modern designs.

## Stainless Steel

Stainless steel countertops will give a modern look to your kitchen and will last a lifetime.

# UPKeep Your Kitchen Countertops

Looking for just a refresh in your granite countertops? Our Granite Tune-Up service is a 3-step process to clean, seal, and protect granite countertops in your home.

Left untreated, water, oils, and other liquids can easily penetrate natural stone countertops. Many Granite Tune-Ups cost approximately \$299 for an average size kitchen, and it can be added to any of our core services including cabinet painting, redooring, or refacing.

Also, ask about Tuning-Up marble & other natural stone surfaces. Note that sealing does not make natural stone countertops stain-proof but helps make them more resistant to stains.

Each location independently owned and operated. Pricing will vary by location

How We Tune-Up your Kitchen Countertops

**Step 1: Clean**  
Using a soft buffing towel, we prepare the granite surface with a thorough cleaning.

**Step 2: Seal**  
We apply the sealer which provides a protective barrier against moisture and other elements.

**Step 3: Polish**  
We use a hand buffer to apply a professional - grade polish.

# Uplift your kitchen with expertise you can trust
